The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 42-46 and 48-61 recites the limitation "synthesis of cital^opram" in line one of each claim. There is insufficient antecedent basis for this limitation in the claim. Claim 22 from which the above claims depend is drawn only to the synthesis of 5-carboxphthalide.

Upon reconsideration the rejection under 35 USC 101 has been withdrawn in light of the amendment of 1/31/05 claiming subject matter not encompassed by the parent. Further, the claims as presently recited are neither taught nor suggested in the prior art.

Accordingly, claims 22-26 and 28-41 are allowed.
